**Engagement Rings
of Distinction**

We have recently selected from our immense stock of loose diamonds many, many blue-white perfect gems of exceptional cutting and brilliance, and set them in mountings of individuality and elegance. They make a real appeal to every man, for every man desires in his engagement ring beauty and real worth.

With the assurance that they are handsome beyond criticism and of the extreme values you have come to expect at the Davidson store, we cordially invite you to inspect them at your leisure.

For "time-to-the-second" during business hours call 60869 or Pico 463.

The Favorite Solitaire

Year after year the favorite of the diamond mounting grows. Clean-cut and graceful, it holds the diamond securely and shows it to the best public advantage. We make it all in solid platinum or white gold, or in green gold with a platinum top. Every one hand made and so fine grained and extremely long-wearing.

Wonderful diamonds of superb water, correctly cut, and brilliant beyond description, are priced in this mounting at from \$15.00 to \$200.00. Choose from papers of loose diamonds if you prefer.

Platinum wedding rings, paved with three or four brilliant diamonds, are priced at Davidson's at from \$12.00. Similar rings in white or green gold start at \$5.

Our New Shell Setting

Many a maid prefers a dainty chased mounting that combines individuality with grace and beauty. We have many exclusive styles from which to choose. Some of purest platinum, some of green or white gold, or a combination of these materials with tiny diamonds at the sides, others of lace-like diamonds with the diamond securely beaded in. You will enjoy making your selection from such a complete stock.

The one pictured is one of our very newest. With a round brilliant-cut diamond, set in an effective shell setting of green gold, with a new fashion and a good one. Prices from \$10.00 up.

NOW THE TWO FINAL WEEKS!—THE FULL FRUITION OF THIS GREAT CLEARANCE

The Opportunity to Better Your Home!

—The last few weeks have flown, as Time does always when borne on the wings of a Great Opportunity.

—Barker Bros.' Thirty-ninth Great Annual Clearance is destined to make its farewell bow on the same day Spring-time celebrates her 1919 debut—Saturday, the first of March.

—Two little weeks—twelve brief shopping days—less than a hundred fleeting hours!

—How quickly they will go, but, while they last, how full and fruitful they will be.

—An hour will not pass without leaving dozens of homes the happier. A sunset will not fade except upon the sight of scores of families smiling over better home-things that the lowered prices of this Clearance helped them bring into their lives.

—For the amplitude of offerings bearing Clearance Savings is still most prepossessing and the chance to find exactly what you want is very, very strong.

—Indeed, despite the swift movement of thousands of dollars' worth of furniture, many visitors say it looks as though the Clearance had but just begun. You see, our ENTIRE enormous stocks of furniture are specially priced—even the brand-new patterns as they constantly come in.

—At the very moment this story is being written, our warehouse is unpacking two just-arrived car-loads of dining tables alone—and these, with thousands of other articles that are new upon our floors since the Clearance's start will be flying the welcome green tags along with all the rest—tomorrow!

Every Room Has Happy Possibilities

if only someone will take the interest to find them out.

A visitor the other day said, "I'm planning to refurnish one of my rooms. It really has attractive possibilities. But the rest of my old-fashioned home is hopeless."

What we told her (and would like to tell everybody who has any such idea as this about her home) is that no room is "hopeless."

Of course some need more coaxing to bring out their good points than others do. But the dullest, darkest room that was ever built can be made cheerful and appealing with the right furnishings and a little sympathetic assistance.

And one of the most satisfying features of the Clearance now entering into its last two weeks at this store is that it is able to touch with its magic wand all the "Cinderella corners" of your home and help you brighten them without spending as much as you would expect.

The depressing hallway; the little room that's dingily papered and gloomily illumined; the "difficult," unfurnished study—all these reveal undreamed-of possibilities when approached in the right spirit, with congenial furniture and "fixings."

It is easy to get enthused over such transforming when there is a Clearance like this to make it so economical.

Women of fine sensibilities say they can feel a distinct personality in our **BETTER HOME**. Its room is a jewel—every one of them—yet we think you'll say they're wonderfully live-in-able.

About Our Store Windows

Color is to the eye what music is to the ear. The harmony of color is as influencing as instrumental melody.

There is probably no sensation more universally pleasing than that of feeling beautiful color harmonies.

Appreciation of this is shown by women when they attire themselves tastefully that they may present a pleasant picture to their friends.

It is appreciated no less by those who consider color effects thoughtfully in order to obtain a successful home atmosphere.

Through several of the WINDOWS of this store there is being made, every day, a particular effort to present "picture-rooms" vibrant with color harmonies.

The people seem eager to see these ever-changing "pictures" and get ideas from them. Someone quaintly told us, "Why, your windows positively sing!"

Next Sunday we want to devote this corner to thoughts on how people are making the most of another way to perfect their good taste.

Barker Bros.' 39th Great Annual Clearance

is NOT a trumped-up, forced occasion for getting more of the people's patronage than they would ordinarily tender us.

It is a logical circumstance, quite inevitable when a store does as immense a business as does this one, to have certain merchandise which it is advisable to close out while it is still in the best of style and thoroughly desirable.

And it is the natural impulse, for a store that takes a sincere interest in everyone's home-happiness, to make less striking, but still very appreciable discounts on quantities of its latest, smartest and most eagerly sought-after furniture as well.

A tight holding-on to our profit matters less to us than that thousands of people should be able to realize some of their dearest ideals NOW, when a Better Home may mean so much to them.

You'll be glad to remember that, besides Furniture, admirable selections of Floor-Coverings, Wall Papers, Linens, Draperies, Objects of Art and many lines of household equipment are generously represented in this Clearance.

Lift Off Corns With Fingers

Doesn't hurt a bit! Just a drop of Freezone on a sore, touchy corn stops that corn from hurting, then shortly you lift that bothersome corn right out, root and all. No pain, no soreness. Try it!

Hard corns, soft corns, corns between the toes, and painful calluses on bottom of feet loosen and lift off. Truly magic!

Women! Keep Freezone on your dresser and never let a corn ache twice

Tiny Bottles of Freezone cost only a few cents—at Drug Stores

My Little Pets Love Cascarets

TO MOTHERS! If you will learn to give the harmless candy cathartic to your children, instead of castor oil, calomel and pills, you will save money and avoid lots of worry and trouble. Truly!

One of the kiddies has a white tongue, a tainted breath, is sick or a cold; when bilious, constipated, feverish, remember, quickly "work" away the nasty bile, sour fermentations and the child will be the first to smile again.

Really like to take candy Cascarets and they never gripe the bowels, never injure, and never disappoint the worried mother. Give Cascarets to children one year old and upwards. Each box contains full directions for children and adults.

TELLS OF QUICK HUN FLIGHT Dropped Everything When Americans Charged at Verdun, Says Pomonan.

A letter giving a vivid description of the headlong retreat of the Germans from the Hindenburg line positions around Brielle as soon as the Americans made their attack in force at that point, has just been received from Lieut. R. S. McConnell of the Engineer Corps by his brother, W. B. McConnell of Pomona.

Lieut. McConnell, who wrote from Verdun on January 1, also gives an interesting description of the elaborate fortifications of the Germans in the Verdun sector. Contrary to a general belief that the enemy was short of big guns and ammunition in the last stages of the war, Lieut. McConnell says they had "enough" ammunition on hand to conquer Metz.

His letter, in part, is as follows: "A couple of days after the armistice was signed I went up to visit the scene of the great stand of the Germans. I would not have missed that trip for anything. This was on the old Hindenburg line and near the village of Brielle. Old Bill Boche had built a line of trenches, machine-gun pits and artillery emplacements which controlled the Meuse Valley for a distance of about fourteen miles, constantly expecting to hold it against all comers.

When the tanks came. "But they had reckoned without their host—they evidently did not realize when they dug those magnificent trenches and had the tanks coming. And when the tanks got there, far be it from them to fall into Bill's trap and go prancing up the valley. They simply eased up on top of another hill and pulled one of the keepest right-flank maneuvers that has ever been executed in the great war. They sent a barrage over in that neck of the woods that was absolutely so heavy that there isn't a spot of ground twenty-five feet in diameter that a shell of some caliber has not hit.

"And Old Bill left in a hurry. There is absolutely no question about that, either. He simply left town 'right now.' In fact, he was in such a dog-gone hurry to get out of the Watch on the Rhine that an old clothes merchant would do a good business in the German uniforms. Fritz left his coat, pants and shirt, and Hans went off without his cap and boots.

"They did not have time to take out their machine guns, rifles or artillery. In fact, they did not have time to do anything but beat it, and, believe me, they did that. About a mile and a half back of the Hindenburg line we came to a hill that looked as though at least 10,000 soldiers were in too big a hurry to run down the hill so they just sat down and slid.

HINDENBURG LINE. "Reverting to the Hindenburg line, I will give you a little description of it that may interest you. The trenches themselves had the usual zigzag formation, which you are undoubtedly acquainted with. As it is the same old story that has been taught in every American camp in the country. About every thirty feet of this line there was a pillbox for the German soldier to sleep in, and just over the brow of the hill.

INCOME TAX BLANKS OUT.

Collector Carter received telegraphic advices from Washington yesterday to release the use of such taxpayers who will return income of \$5000 and less for 1918.

In sending out these lists the collector has the addresses of thousands of such taxpayers who have been affected by the old tax law, but he requests that in cases where individuals liable for the tax do not receive the necessary blank that they communicate at once with his office and they will be furnished. Blanks for incomes over \$5000 will not be available for another week.

It is urged by the collector that taxpayers use great care in making out their blanks, and that they do not use more than one if they can possibly avoid it.

To acquaint the taxpayers of Los Angeles with the provisions of the new internal revenue law, Collector Carter will open a school of information tomorrow, at which his chief deputy, Sherman Jones, and himself will be present to answer the multitude of queries that are sure to be asked by thousands of citizens. The first meeting will be held in the courtroom of United States District Judge Blodgett, at 5:30 p.m., and they will continue at the same place during the entire week, on Saturday, the meeting will be at 2:30 p.m.

Here are a few high lights on the new law. Income—The 13 per cent. normal tax on individual incomes earned last year and the 8 per cent. payable in 1919 are retained, with individual exemptions of \$1000 for unmarried and \$2000 for married persons, and \$200 for each minor dependent. Only 6 per cent. of this tax is to be paid this year, and only 4 per cent. afterwards, on the first \$5000 subject to tax above exemptions.

Surtaxes—Individual surtaxes range from 1 per cent. on income between \$5000 and \$6000, to 65 per cent. on more than \$1,000,000. Cigarettes—From \$3 to \$7 a thousand, depending upon weight. Cigars—From \$1.50 to \$15 a thousand, depending upon weight, with 50 per cent. increase upon those sold for more than 20 cents each. Ice cream, soda water, suppers, etc.—Beginning May 1, 1 per cent. on each 10-cent sale. A new tax. "Beer and other fermented beverages—Six dollars a barrel; double the present tax.

"Near beer"—Fifteen per cent. on sales. A new tax. Grape juice, ginger ale, etc.—Ten per cent. on manufacturers' sales, instead of 1 cent a gallon. Fats—Ten per cent. on those costing \$1 or more. Women's silk stockings—Ten per cent. on those costing more than 13 a pair. Postage—Two-cent rate restored on July 1. Canned—Ten per cent; an increase of 7 per cent. Candy—Five per cent. A new tax. Thermos bottles—Five per cent. A new tax. Chewing gum—Raised from 1 per cent. to 3 per cent. Sleeping-car berths—Taxed 5 per cent. instead of 10 per cent. as at present. Telegraph and telephone mes-

DISCUSSES PROPOSED STATE LEGISLATION. SENATOR CARR TELLS CITY CLUB OF HIS UNDER CONSIDERATION.

State Senator William J. Carr spoke before the City Club yesterday on the subject of pending legislation. As 1700 bills have been introduced, it was quite impossible for the speaker to give even a comprehensive summary, but he discussed numerous proposed measures and the possibility of calling a constitutional convention, composed of delegates from each Assembly District, one from each county and twenty-five delegates at large.

He also discussed at some length the proposition to create a \$100,000 revolving fund for the land settlement board, and the proposed submission of a \$10,000,000 bond issue for land settlement and development work. He also discussed the proposition to amend the prohibition amendment, which provides for special districts to the Attorney-General.

Among other bills which the speaker briefly reviewed were the Sunday rest bill, labor legislation, increased allowance for elementary schools, a State farm for women, community property laws, giving wives the same property rights as husbands; compensation law amendments, etc.

The City Club has under consideration a proposal to take over the quarters of the Sierra Madre Club, which is now in the Los Angeles Investment Company's Building at Eighth street and Broadway.

FILES MORE SUITS ALLEGING SLANDER.

SALES MANAGER OF PIPE COMPANY SEES AWARD OF LARGE DAMAGES.

S. J. Coffman, Jr., sales manager for the Pacific Sewer Pipe Company, who, Friday, filed slander suits against Mayor Lisenby and City Commissioner Riley of Long Beach, yesterday brought suits against former Mayor Louis N. Wheaton and Councilman A. L. Partridge of that city on similar charges. The suits grew out of the recent competition for supplying material for the outfall sewer.

Mayor Wheaton is charged with making an affidavit sent to Councilman Reeves of Los Angeles, in which it is alleged Mayor Wheaton stated that Mr. Coffman had solicited his influence with the City Council in having clay pipe specifications adopted.

Mr. Partridge is charged with having written a letter to Councilman Reeves which commended the latter on his stand against the method "employed by this man to throttle competition."

The total damages now demanded by Mr. Coffman against the four defendants is \$49,000 for alleged injury to his business reputation.

MORE TROUBLE AHEAD.

Will Issue New Complaint Against Man Now Held in Jail.

Zenon Rem, in the County Jail on a Federal warrant accusing him of illegally wearing the uniform of a Russian officer, will be accused of obtaining money under false pretenses in a complaint to be issued tomorrow, according to Deputy District Attorney Heinicke. The complaint, reciting representations made to Miss Ann Miller of 1321 North Wilton place, to obtain loans aggregating \$500, was drawn yesterday, but was not signed.

The complaint will contain four counts, says Mr. Heinicke, covering a loan of \$250 on January 20, and one of \$400 on January 20, and two sums of \$200 and \$100 between those dates.

Hunting Homes

House hunting is becoming a leading outdoor sport in Los Angeles.

One business house—not in the real estate business—had 61 inquiries in one morning for houses to rent.

One individual builder had 137 lookers inspect one of his houses in New Vermont Square in three hours.

Rental departments are becoming a useless waste because there is nothing to rent. House salesmen have little to do because houses are bought of the builders before they are finished.

Lot prices went down during the war. They are going back to normal now. Building prices will not go down much for years because of enormous delayed world-wide building.

Homeseekers, investors, builders, by all means should act at once and secure lots in New Vermont Square before they advance on February 22nd.

New Vermont Square, clean, restricted, desirably located, is particularly choice. Get your lots while they may be had and add a house or houses to the 478 beautiful homes already there.

See agents at property or call at office.

WILL DISCUSS JOINING CITY.

Conference on Annexation of Santa Monica to Occur Thursday.

A conference on the proposed consolidation of Santa Monica with Los Angeles, and the annexation of contiguous territory, is to be held at the offices of the Board of Public Service Commission at 3 o'clock, next Thursday afternoon. Members of the board, heads of departments of the public service and various city officials, as well as representatives of the outside interests connected with this project, will participate in this conference.

At present plans have been made for the carrying of water onto the lands in the Westgate annexation district, but a larger distribution of this water is deemed desirable if the annexation and consolidation project is carried through, and the entire district would have to issue bonds for the proposed distributing system.

COUNTY AGAINST AUTO LICENSE TAX CHANGE.

Will Oppose Proposed Amendment That is Advocated by the City.

The county is making a fight against the proposed amendment to the law providing for the payment of 50 per cent. of the automobile license tax. Under the present law, one-half of the automobile license tax collected here is turned over to the county and this money, aggregating \$110,000, is expended in the good roads movement.

The city is now claiming that a portion of this tax should be turned over to it, and has suggested the proposed amendment. The county contends that good roads will suffer if this is done. Another argument why the county should have its just proportion is that many city-owned vehicles use the county roads, it is held.

Supervisor McClellan yesterday received resolutions passed by the City Councils of Santa Monica and Long Beach, urging that the amendment be opposed and calling on Senator Lyon and Assemblyman Wickham to fight it in the interest of the county.

SERVICE BADGES.

A novel decoration for its returned soldiers has been adopted by the Little Church of Christ, Fifth avenue and West Fifteenth street, of which Dr. W. B. Thompson is pastor. Each of its eighteen congregation members who went to war is to be presented on his return with a handsome silver service star in a circle, the latter bearing an appropriate inscription and the whole slightly larger than a dollar.

TO TEACH VOICE BUILDING.

Jeff Jefferson, head of the Jefferson Modern School of Drama, announces the beginning of his second winter term in voice building and dramatics. Mr. Jefferson is a master of the drama, having played with the principal managements of Europe and America.

RECOMMEND HIGHER RATE.

The Board of Public Works yesterday sent to the City Council a recommendation that city employees who use their own cars in the transaction of municipal business be allowed a rate of 4 1/2 cents per mile hereafter, instead of the present rate of 3 1/2 cents per mile.

Child is Constipated! Bilious! Look at Tongue

Hurry, Mother! Remove poisons from little stomach, liver and bowels with "California Syrup of Figs."

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given. If your little one is out of sorts, half-sick, isn't resting, eating and acting naturally—look, Mother, see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-aches, diarrhoeas, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few

hours all the constipated poison, undigested food and sour bile gummy moves out of its little bowels without crying and you have a well, playful child again.

Mother can rest easy after giving this harmless "Fruit Laxative," because it never fails to cleanse the little one's liver and bowels, and sweeten the stomach, and they surely love its pleasant taste. Full directions for babies, children of all ages, and for grown-ups printed on bottles. Remember name, "California."

In Which Blankets and Comforts Vie for Highest Honors From the Standpoint of Value

Consider the blankets in the sale: five super-ration—everywhere a woolen. Flairs mostly though one feature item is obtainable in plain white. These are large, heavy blankets (70x90 size), \$4.75 the pair. While this one number is a "mill second," slightly but not seriously defective, it is an exceptionally good blanket at the price. Remember, this one number only, is a "second," all others are perfect in every respect.

Hot Water the Very Instant You Turn the Faucet

Is Not the Promise; But The Guarantee of the Hoffman Automatic Water Heater

Turn the water faucet and hot water flows—at once, not after a wait of fifteen or twenty minutes, but at once. Rinsing hot water heated to 145 to 155 degrees as if by magic—a cupful, a tubful or a dozen tubs full—on your needs require.

And the beauty of it is, the gas only burns when the faucet's turned on. You heat only the water you actually use, on probably don't know just how little it costs to have a constant supply of hot water—the Hoffman way. Any time you choose to call we'll gladly explain why the quickest way to get hot water is also the cheapest. We're all alone of this kind here from the size that heats 3½ gallons of water per minute to the 6-gallon per minute. Complete line of tank heaters also, for use in connection with kitchen boiler.

THE DETROIT VAPOR WATER HEATER, which burns gasoline, kerosene or distillate to fuel the heater for the country home, deprived of the convenience of city gas.

SEEKS BIG SUM FOR DISRUPTING HOME.
WOMAN SAYS RIVAL EMPLOYED HER WEALTH TO ABDUCT HER HUSBAND.

Mrs. Ella Irene Doughty yesterday brought suit against Mrs. Florence Shupp Doughty, wife of Paul E. Doughty, the plaintiff's husband, for alienating his affections. She demands \$25,000 damages for the disruption of her alleged happy home.

Paul E. and Ella Irene Doughty were married on December 25, 1918. Mrs. Doughty is charged with alienating her husband's affections by having seduced Mr. Doughty's affection for her during the years between September 1, 1918, and August 16, 1918. The complaint, prepared by Attorney John S. Doughty, declares that the defendant "employed her wealth" as a means of seducing Mr. Doughty.

The principals in this unusual suit are prominent in Covina. It is said that Mr. Doughty first met his present wife through church work. She was then the widow of Irving Shupp, a pioneer orange grower at Covina, who left her an estate of \$85,000.

Last August Mr. Doughty is said to have journeyed to Reno and obtained a divorce. He married Mrs. Florence Shupp last October. Mr. Doughty at that time owned a garage.

Mrs. Ella Doughty and her two children reside at Covina. The children are 15 and 18 years old.

PASADENA TO VOTE ON MEMORIAL SITE.

THREE TRACTS CHAMPIONED IN ADDITION TO FIVE IN LIBRARY PARK.

Pasadena is in the throes of an agitation as to where to put the soldiers' and sailors' memorial auditorium. It is the event that the bonds are it is voted at the special election to be held for the purpose next Tuesday.

The Memorial Hall Committee, which has the furthering of memorial bond issue in charge, is now on Raymont avenue, at Holly and Chestnut streets, as the site.

Other prospective sites were immediately urged and it was finally determined to place the names of four sites on the ballot, Tuesday, the citizens to express their preference then.

The sites which appear on the ballot, other than Library Park, are: Carmelita, Tule, Colorado street, just west of Vernon avenue,

priced at \$115,000; Colorado street, Ford-place site, priced at \$129,625; and the so-called "four corners" site, bounded by Colorado and Herkimer streets and Madison and El Molino avenues, priced at \$240,000. The Library Park, being city-owned, is free.

The bond issue will be from \$400,000 to \$800,000. That is to say, if a site is purchased \$100,000 bonds will be issued. If the free site is chosen the bond issue will be approximately half that amount.

BUSINESS BREVITIES.

TO DIVIDE RANCH WORTH MILLIONS

End of Famous Broomé Case Opens Way for Big Development of Vast Rancho Guadaluasca; New Townsite and Beach Resort May Follow.

During the receivership, the property prospered, and it has produced annually large sums of money from the sale of beans, cattle, etc. The receiver estimates the value of the Rancho Guadaluces place at in excess of \$3,000,000.

NORTH OF THE MALIBU.

Rancho Guadaluces lies immediately north of the Malibu, which latter is a small tract of 1,000 acres, though between these two great tracts there is a small gorge of government land known as Terba Buena. The Terba Buena estate is settled by homesteaders, who have established a school district, have a polling place, etc., but protest that they are completely hedged in between the Malibu and the Rancho. The fight of settlers to secure an outlet by establishment of a public road across the Malibu has also been

newly long drawn-out litigation, and its sale is being handled by many newspaper narratives.

Rancho Guadalupe was originally owned by the famous Mexican statesman, Benito Juarez, who had the rancho—Conejo, Colima, Calleguilla—now owned by the Camarillo Brothers, who are now planning to develop the area into a resort. The ranch smiles on the Pacific Ocean, and there are many picturesque points along it, including the famous Point of the Cave and canyons, and shivering stretches of sandy beach.

A portion of the famous rancho is known as Point May. This is about eight miles south of Huachuca, and is named after a tribe of Indians who lived in this portion of Ventura county in the very early days. It is famous for its fish, and is famous for its shelling fish. At one time a prospect was under way to build a wharf at the Point of the Cave, but the rancho it is possible that the spot will be utilized for a new beach club.

ON PROPOSED HIGHWAY.

Another interesting feature in con-

Rancho Guadalupe, with the partition of Rancho Guadalupe, and the logical step hereafter to cut it up into small parcels and sell them. The advantage is that it lies directly on the route of the proposed scenic coast highway from Santa Barbara to San Diego.

While there is no indication that an appeal may be made, it is a heart-on-the-sleeve move. Still it is possible in connection with the proposed highway that the Department pending in the matter of the Brooks estate, Receiver Hill investigated the records of the Rancho Guadalupe. In Liberty, the receiver has been protested against this, and has taken an appeal on the decision sustaining the receiver's action. The receiver's heirs have made no protest against the investment of the ranch proceeds with under receivership in Liberty.

Rancho Guadalupe is a great body of land, and is covered with alfalfa, corn, and other crops. More than 200 acres are cultivated. The crops are barley, beans,

year is cropped to beans. The highest rental ever received for the use of the ranch was that paid by the American Beet Sugar Company, which leased the property for a term of five years at \$5,000 a year. Since this lease expired, and under the supervision of Receiver Hill, the ranch has been leased in sections. At present as many as fifteen separate

HUNTING A JOB IN LOS ANGELES.

The Adventures of an Unsophisticated Girl Without Money or Training, Thrown from the "Sheltered Life" on Her Own Resources in a Big City.

BY MARIAN S. WEST.

I was raised in a big city and considered myself able to cope with the city life, although I had seen it only from the "home side." I was one of those unfortunate girls, trained to do nothing. We had never been wealthy, but belonged to that upper middle class, whose daughters can entertain, perform on the piano, possibly well, play a good game of cards, and are unable to earn a dollar.

When the crash came I went to pieces, and not until my father's death did I learn the truth to the fact that I had in the future to "paddle my own canoe."

I had been to Los Angeles before, and I had never seen any other place that appealed to me as did this city. And so I started for the land of my dreams to earn my own place in the world.

My acquaintances at home said with one accord: "You'll be a failure. You can't make a living. You don't know anything. You'll spend the few dollars you have, and come back defeated, but I didn't have much money, but I walked up town to a hotel where I had stopped before. Nobody there knew what a strain the hotel care was on my purse. For dinner that evening I went to a cafe and ate opposite an elderly man, who had ordered an expensive

What Is the Cause of Backache?

BY DOCTOR CORNELL

Backache is perhaps the most common ailment from which women suffer. Rarely do you find anybody free from it. Sometimes the cause is obvious, but Dr. Pierce, of Buffalo, N. Y., a high medical authority, says the cause is very often a form of catarrh that settles in the delicate membranes of the feminine organs. When these organs are inflamed, the first symptom is backache, accompanied by bearing-down sensations, weakness, unhealthy discharges, irregularity, painful periods, irritation, headache and a general rundown condition. Any woman in this condition is to be pitied, but pity does not cure. The trouble calls for Dr. Pierce's Favorite Prescription, which is a separate and distinct medicine for women. It is made of roots and herbs put up without alcohol or opiate of any kind, for Dr. Pierce uses nothing else in his prescription. Favorite Prescription is a natural remedy for women, for the vegetable growths of which it is made seem to have been intended by Nature for that very purpose. Thousands of girls and women, young and old, have taken it, and thousands have written grateful letters to Dr. Pierce saying it made them well. In taking Favorite Prescription, it is reassuring to know that it goes straight to the cause of the trouble. There is but one way to overcome sickness, and that is to overcome the cause. That is precisely what Favorite Prescription is intended to do. Send 10c for trial pkg. of Tablets. Address: Invalids' Hotel, Buffalo, N. Y.

Constipated women, as well as men, are advised by Dr. Pierce to take his Pleasant Pellets. They are just splendid for constipation.

Tent Gains Fifteen Pounds Taking Tanlac.

Had Been Going Down Hill Six Months.

Now Feels As Well As He Ever Did.

"I have gained about fifteen pounds since I began taking Tanlac a short time ago," said Charles W. Tent, route supervisor for the Jewel Tea Company, whose residence is 1104 South Main street, Los Angeles, a few days ago.

"I have always had pretty good health," he continued, "but about six months ago my stomach went back on me, and my general health began to get bad. I tried to be careful about what I ate, thinking that I might cure this trouble by dieting, but it wouldn't work. Every time I ate anything my food would sour on my stomach and cause me to feel so bad that I would be miserable for hours afterwards. My appetite left me, and my nerves were in such bad condition that I couldn't sleep very well. My entire constitution began to give down, and I lost a lot of weight, and could feel that I was getting weaker and more run-down every day."

"About the first of last October I decided to give Tanlac a trial, and a few bottles of it fixed me up all right. I have no trouble with my stomach now, and haven't had since I finished taking my second bottle. My whole system was wonderfully built up by Tanlac that I feel as well as I ever did. I am never bothered with nervousness now, and I get plenty of good, sound refreshing sleep every night, and when I wake up in the morning I am hungry and ready for a good, hearty breakfast. And that reminds me to say that Tanlac is not the only meal I am ready to eat for my appetite is so big that I am really voracious at every meal. Tanlac is a wonderful medicine and I think so much of it that I expect to always keep it on hand, and when I don't feel exactly right I just take Tanlac until I do. I am more than glad to recommend it to everybody."

Tanlac is sold in Los Angeles, Pasadena and San Diego by the Owl Drug Company under the personal direction of a special Tanlac representative.—Advertisement.

Showed me queer instruments.

to the employment agent to get back my \$2.50. I hadn't taken the "position." He persuaded me to let him retain the money and find me another place. As he had nothing available right then I promised to come back Monday morning.

INTO CHEAPER QUARTERS. I could not afford to stay longer at the downtown hotel, so I asked them to recommend me to a smaller and less expensive place, which they did, and I went out to look at the room. It was large and airy and well-furnished. However, I didn't decide to take it until I had looked at an available place of rooms. No doubt, lots of people who read this have gone room hunting, and I know that I have their sympathy. I strapped upstair and downstairs and saw all kinds of landladies and ended up by taking the room at the little hotel to which I had first gone.

Monday morning I went again to the agent on Spring street. Yes, he had just the place for me, a doctor who ran an exclusive sanatorium in Pasadena needed a girl to act as companion to elderly, wealthy patients; no work; only just to be jolly, and make the old folks laugh. I took the car to Pasadena. It was a long walk in the hot sun after you left the car and started out to the foothills and up the foothills. I hadn't had very much breakfast.

When I finally started the sanatorium proved to be a sort of recluse for slightly demented people and it transpired that the doctor didn't

need a girl at all. There had been some mistake, and I was out my car fare, and even car fare was a problem with me in those days.

On the way back a boy gave me a lift in a jitney. He was a sort of collector and solicitor for a big grocery firm in Los Angeles. At the Short Line station he said: "Now, girls, you meet me some morning, and I'll take you over Pasadena. We'll have a big day." I told him that I expected to go to work, but that I could go some Sunday. He was such a green kid. "Nothing doing on Sundays," he hurriedly assured me. "I have to take my wife out Sunday afternoon."

I crawled out of the machine and into the street car and I wanted to scream.

Then came another walk up the long flight of stairs to the fat agent's office. I wanted my \$2.50 back. Impossible; I had violated the rules in not filling out my employment blank or having the doctor at the sanatorium fill it out properly, as I had not been hired.

What did I know about employment blanks? I asked him, but he held out my money. Now, \$2.50 is a good deal to a girl who can't afford enough to eat.

I argued and pleaded for my money and he refused. I made up my mind, though I didn't voice my decision, that if he held my money back I would get a policeman. I was hungry, I needed the \$2.50. Maybe I looked mad; maybe the agent was afraid I'd call an officer. Anyway, he gave me back \$2.

And then began the real hunt for work. Everywhere I was asked: "Have you had any experience?" No. That was my finish right there. The manager of the little hotel where I stayed, hinted to me that they didn't like to keep girls who didn't work.

Wasn't that a snap? From tramping around town, I had cracked the sole of my white shoes, so I got out a pair of old black leather shoes. I had letters of introduction to two men in Los Angeles. An optician at home had given me a card to a prominent optician man here and a lawyer to an attorney in Los Angeles.

So I hunted up the optician. He was a very handsome young married man. He looked me over critically.

"I'm afraid, little girl," he said, "that with your utter lack of experience, you'll find it hard to get work. Then you don't dress well enough. Your skirt is the wrong length, and you don't 'dollar' the way the girls do here. You must wear silk hose, and swell duds if you expect to catch a fellow. No young man would take you out in those clothes."

I was looking for work—not a man. He suggested that I "dollar" for me; and I should spend my evenings at a certain public dance hall and there I'd meet the youths who would help me out in my expense.

I had expected that this man would give me good advice, but I was mistaken. I thanked him for his suggestion and left.

The attorney was big and fat and jolly and he talked to me like a father. He didn't tell me that I looked shabby. He just encouraged me, and made me feel that there were gentlemen in the world after all.

We are still excellent friends. I had so little money left that I decided that I could best economize on my stomach. I found a restaurant where I could get breakfast for 5 cents, lunch for 10 cents, and dinner for 10 cents, and then I began living on 20 cents a day. If you have ever had to live on 20 cents a day, and know the pitifully small amount that it will procure you may know how many nights I went to bed hungry. The little restaurant was a Godsend to the poor. The food was good—the coffee wonderful, but it wasn't enough food for a healthy girl.

BEHIND A COUNTER. Then I got a chance to do extra work in a department store. The pay was \$4 a week, but I was only to be an extra, and not work every day. They put me in the hostess department. The manager of this department, a teen, black business like young woman explained the

price, and quality and location of the hostess and then left me to my fate.

I was scared. I lost all the bravery I ever had, and I did a funny thing. I ran down to the basement and went and hid in a dark corner, intending to wait my hat and "accot." I didn't think that anybody upstairs would miss me. But they did. Maybe either "tenderfoot" had got scared, because I was such a very corner. Anyway a girl came and told me that one of the head men wanted to see her. Then I was scared. I begged to be allowed to go home. Anyway, I went upstairs, and they put me in the "pit." I had a little counter, and I sold underwear at 15 cents a garment. I sold a lot of shirts. I gave everybody the glad smile, and sold shirts as fast as I could hold them, and see if they were wide enough and long enough, and would stretch. I could handle three customers at a time.

I had the gift of selling. I made friends with everybody. I worked hard, and as a salesgirl "made good."

Then one day an unfortunate thing happened. I got mixed up in my accounts. In order to straighten things out, I appealed to one of the head men in that department. I thought that they were going to cut me up in little pieces. One man said I hadn't done anything all day but "fuss around." And that, after all the hats I had sold and all the money I had taken in.

They told me to take my check-book, and go and find a quiet corner, and straighten out my accounts. Down in the basement, I found a kind girl—most working girls are kind, and she tried to fix up my book for me, but I had made a fearful botch of it. It was getting late and I was tired and peevish at the injustice of the situation that I had "looked on the job." So I just dropped that book right there and got my hat and ran up the street just as fast as I could. I was afraid

that maybe they might miss me, and bring me back. I never did go back there to work, though many times since I have been in that store shopping.

IN A CAFETERIA. I was perfectly crazy about dining at cafeterias, and I had looked forward to the time when I would be financially able to eat there. So I decided that being a serving girl would be wonderful.

10¢ a day for meals.

So I applied at a cafeteria and was employed right there. I put on the cutest white cap, and the dearest apron, adjusted my side curls, and went behind the counter. When it came time to eat, I could hardly restrain my joy. Now I would have just what I wanted to eat; no bread, no mashed potatoes—just what I had to eat when I had to pay for it. My board "went in" on this position, so I would have

WEDNESDAY MORNING.

HYSTERIA IS REBUKED.

Report on Ventura School Criticizes Some Features, Approves Others.

The findings of the State Board of Charities and Corrections, which yesterday afternoon issued its report on the Ventura School for Girls, is a distinct rebuke to the hysteria which has marked the inquiry in some quarters and which sought to make a succession of chambers of horrors. The demands made for wholesale expulsions of school officials and for total changes in administrative methods are ignored altogether by the State board.

The most serious and sweeping single charge brought against the school, striking at its foundation, was that the institution is being used for penal instead of reformatory purposes. This charge the board flatly denies.

The committee of five, named by the State board of Charities and Corrections, which was interested in the inquiry, will wait upon Gov. Stephens early this week and present certain allegations based on the promise that the board's report is not sufficiently drastic.

The recommendations set forth in the board's report are reinforced by an announcement that the State board of Charities and Corrections has under way a survey into the educational work of the school and hopes to be able to improve conditions along the lines indicated in its findings.

After reviewing the charges, mentioning the vast quantity of contradictory evidence, and outlining the hearings at which it was gathered, the report says: "The board states its approval of many features of the school. The physical corrections were not open to criticism; the upkeep of the cottages was admirable; the girls looked healthy and well; the results of the teaching of household arts were everywhere in evidence, adding to the attractiveness of the place; the commercial courses offered by the school have provided instruction and training to girls, many of whom are now on pay roll and successfully employed in such work."

The board sustains the charges as to the use of apomorphine, but in its judgment used as punishment. The board does not sustain the charge that the school has been of a penal character rather than reformatory. The board disapproves of the deprivation of sustaining food for growing girls for any period of time, exceeding a few days; unfortunately it cannot pronounce it an unusual punishment, for it is a punishment all too usual in many institutions.

The board disapproves of the lack of heat in the cement cells during the winter months when the girls are in No Privilege Cottages. The board disapproves of the incarceration of groups of hysterical hyperactive girls for a long period of time in crowded condition in single cells. Such a policy, from every medical and moral standpoint, defeats its own purpose. The board thinks hysterical group leaders should be separated as far as possible.

The board regards the use of mouth washes as a time-worn expedient questionable as a corrective measure. The board regards the use of baths, with floating chunks of ice in the water, as neither serious nor significant.

NOT UP TO STANDARD.
The board sustains the charges with regard to education. We find that neither the school equipment nor the teaching staff is up to the attainable standard and that, therefore, much more can be done for the girls in this respect than is at present achieved. (See our recommendations.)

The board sustains the charge that there is not proper physical care, although the general health of the girls seems good; there has been only one death since the establishment of the school, and that from influenza.

Viewed from several standpoints, it is the opinion of the board that the medical and surgical care of the girls has been markedly inadequate.

RECOMMENDATIONS.
Punishment—The board approves of the deprivation of privileges as punishment; the board approves of short periods of isolation of girls as punishment.

Education—The board recommends an educational administrator; a minimum of three hours a day schooling for five days a week; a dietitian; that a study of student self-government be made by the trustees of the school.

Recreation—The board recommends a trained physical director; an assembly room equipped with a stage for entertainments and provided with apparatus for gymnastics; improvement in the opportunities for social life and recreation; that necessary surgical be upon call; provision for treatment room with adequate equipment for treatment; continuance of treatment of girls while in No Privilege cottages; that special attention be given to the general nutrition and physical hygiene of cases of psychopathic neurosis; closer medical supervision; an isolation room for newcomers; that necessary surgical work be done, specially diseased tonsils and adenoids; that all orders for medical care be given in writing by the physician; that a small supply of first-aid remedies be kept in all cottages; State registration as requirement for graduate nurse, and the installation, equipment and maintenance of psychopathic ward for hydrotherapeutic treatment.

ANNOUNCEMENT.
The State Board of Charities and Corrections, with the consent of the school, has under way a survey of the educational work of the California School for Girls. In this survey it is intended to take account of all the abnormal conditions affecting the problem there, involving the physical, moral and emotional as well as the intellectual character of the girls. It is the purpose of the board to have the survey made by a group of experts from two universities. This investigation would enter a field that is practically unexplored. If the survey in this particular school proves, as we hope it will, to be of practical value, we hope to be permitted to undertake similar surveys in the other correctional institutions of the State.

STATE CHARITIES BOARD MEMBERS.

The following are the members of the State Board of Charities and Corrections: Martin A. Meyer, San Francisco, president (now in France); Mrs. Carrie Parsons Bryant, Los Angeles, vice-president; Dr. John R. Haynes, Los Angeles, Jessica B. Peckott, Berkeley, Father Charles A. Remm, San Francisco, B. H. Pendleton, Oakland, Cornelia M. Stanwood, secretary.

What Would You Have Done in Robertson's Place?

(Continued from First Page.)

himself and his wife abiding, his attitude loving and compassionate. But at the moment his wife was adamant. Her answer was a point blank refusal.

Robertson turned sorrowfully away, unsatisfied. The wife's resistance to his plea had filled him with a firmer resolve to try once more. That night he sought his mother's counsel, but he found no comfort there.

"I cannot live my life out without her," he declared. "I must win her back. I know my duty—it is with her."

"Is your duty to your wife, after all that has passed, stronger than your duty to your mother?" he was asked.

Robertson's steps led him to his wife again next day—to press his plea even stronger than before. This time he won.

"We are going ahead as if nothing had happened," he said in answer to a query as to possible steps toward divorcing his wife's companion. "Nothing else matters now—everything that has happened will be forgotten. We will wait—and see."

TO SALT LAKE FOR TRIAL.
Alleged Counterfeiter, Arrested Here, Is Ordered Removed.

United States Commissioner Long yesterday ordered Dante Bagnauri, alias John Zanol, an Italian, removed to Salt Lake, where he is wanted by Emilio Cavini, for an alleged counterfeiting scheme.

Special Agent George W. Hazen of the United States Treasury Department, who captured Bagnauri in this city, says that in 1915 he was convicted of counterfeiting in Salt Lake and sentenced to two years in the Federal penitentiary at Leavenworth. When taken into custody here, Mr. Hazen found a collection of molds, dies and plaster of paris in Bagnauri's room on West Temple street.

The prisoner was known in a certain circle of local Italians, as John Zanol, it is said, and claimed to represent an Italian newspaper of Salt Lake.

TO TRY OIL LAND SUIT.
Federal Judge Here from Portland to Hear the Evidence.

United States District Judge Robert S. Bean of Portland, Or., will try one of the numerous suits brought by the government to cancel entries on valuable oil land in Kern county, beginning in Judge Bidwell's court tomorrow morning.

The defendants in the present action are the California Midway Oil Company, the Consolidated Oil Company and numerous others. It is alleged by the government that the land was within the withdrawal order of President Taft in September, 1909, and that no development work had been done by the defendants previous to that time.

The hearing of the testimony will require the most of the week. One hundred and sixty acres are covered in the complaint of the government, and the alleged value of the land from an oil standpoint is \$400,000.

MUST PAY ATTORNEYS.
Balance of Large Fee Held Reasonable by Supreme Court.

The final entry in the long-drawn-out litigation involving the Title Insurance and Trust Company and the California Development Company was made by the State Supreme Court yesterday, when the judgment of the local Superior Court, awarding the attorneys in the case a balance due of \$22,000, was affirmed.

FITZGERALD MUSIC COMPANY

The KNABE AMPICO Reproducing Piano

You may best understand what this instrument is, if you first understand that it is NOT a player piano.

As the NEW EDISON literally RE-CREATES the human voice, so the Knabe Ampico Reproducing Piano faithfully REPRODUCES or repeats the identical hand playing of great artists.

"Thoughts Are Things"

Thoughts, springing from the primary impulse to serve others—to do a thing for the sake of the achievement, and of doing something better than it has been done before—these materialize themselves in forms that are always recognized as best and most desirable.

Springing from such sources of sincerity and desire to serve, those two supreme instruments of their kind—

The NEW EDISON and the KNABE AMPICO Reproducing Piano

each represent the highest pinnacle of quality in their respective field of music reproduction. We feel a very worthy sense of satisfaction in presenting them to you, and being the means of introducing you to so many years of pleasure as we are sure you will find in the possession of either one of them.

ARGUES TOO MUCH.
Taxi Man Who Said Cars Stop in Middle of Street Held to Court.

William Erickson, an independent taxi driver, whose stand is at the Southern Pacific depot, was telling two tourists to stand right there and the street car would stop in the middle of the block for them, when Officer John Lennon passed by.

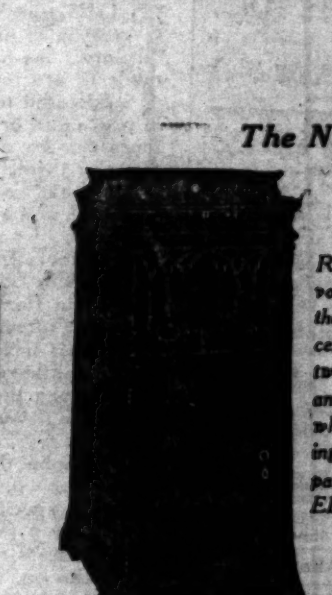

The cars stop at the street corners only," said the officer to the tourists.

"They do not," said the taxi man. Then a crowd gathered, and Erickson continued to argue. The officer alleges. So yesterday Erickson appeared before Police Judge Chambers on a charge of disturbing the peace and after listening to a lecture from the magistrate received a suspended sentence of \$10 or ten days.

GENUNG ESTATE.
Charles E. Genung, who died on February 1 last, in Pomona, directs in his will, filed for probate yesterday, that his widow, Mrs. Hattie A. Genung, shall receive \$50 a month from his estate and shall have the use of the home place so long as she remains unmarried. Upon her death the real property of the estate, valued at \$20,000, will go to Edmund H. and Carroll A. Genung, sons, the latter with the American forces in France.

Right Now

Right now is the time to think definitely about your garden.
Right now is the time to make plans.
Right now is the time to decide that this year you will have a real garden.
Right now is the time to commit yourself absolutely to the idea that you will grow food, that you will grow food of the finest quality, and not waste your time and labor on anything but the best.
Right now is the time to resolve that you won't take a chance on unknown seeds, that you will plant quality seeds only, seeds that have a reputation.

FERRY'S SEEDS
are quality seeds. They are the children of parent, grandparent and great-grandparent plants that we know have produced vegetables and flowers of the very highest quality.

Experienced gardeners put their trust in Ferry's Seeds because they know that by selection and actual trial-garden tests we have made as certain as it is humanly possible to do that Ferry Seeds will reproduce all their ancestral quality inheritance in all its perfection.

Ferry's Seeds are sold by dealers everywhere. Buy NOW!
Write today for the 1919 Ferry "Seed Annual." It tells you when and how to plant your garden.

THE WRONG TRACK.

Now they are forming "Save The Kaiser" societies throughout Germany. Why not have it the other half of the original form? He is the only one who can help him, anyhow, and the Germans are only meeting up their cause by interfering.

FIXING THE BLAME.

Secretary Lansing is the head of the commission to which is assigned the task of determining the responsibility for the war. The committee might begin things by subpoenaing the Kaiser as a witness and giving the writ to Marshal Foch to serve. It might help some.

BY SENATOR CHAMBERLIN.

The Times calls attention to a series of articles it is printing from the pen of State Senator Harry A. Chamberlin of this city. The Senator dissects some of the important and unimportant measures introduced in the Legislature—and he is perhaps the legislator best equipped for this job in either house at Sacramento. An article by Senator Chamberlin will be found in Part III of this issue.

ABUSE OF PRIVILEGE.

There may be some argument against the constitutionality of deporting an alien merely because he is an alien, but under a programme of safety first any government is justified in undertaking it as a policy. When the alien openly defies established order and abuses the hospitality of that government there is no room for argument. He should be taken by the neck by the throat and choked out. America is no clearinghouse for scum, and Federal judges should uniformly deny the writ of habeas corpus when applied for on behalf of an alien who has never indicated an atom of respect for governmental authority. He should not be permitted to invoke the protection of a Constitution for which he has only shown contempt.

CHARMEN OF VASSAR.

Vassar girls are permitted to smoke almost anywhere except in bed. They mustn't smoke there for fear of starting something—a drive on the fire insurance companies, for instance. But Vassar is about the only school which has officially recognized that women have learned to dally with the insinuating cigarette. Vassar has therefore tackled the matter in a practical way. Instead of forbidding they will regulate. Smoking must be in the open. Girls may smoke in public, but not in private. They may make torches of themselves in the midst of the campus, but not in the privacy of their rooms. The small committee can locate them if they do. The big idea doubtless is that smoking with girls is chiefly a secret vice and indulged in the privacy of the individual or of small groups. If a girl can sit on the college steps and puff a big black cigar she won't want to do it. But, anyhow, Vassar has recognized the companionship of My Lady Nicotine and if a girl can find any solace or satisfaction in touching off a bunch of cigarettes she may go ahead and do it. And only a few miles away a men's college is forming a No Tobacco League for the purpose of making this a smokeless world!

German propagandists are reported to be busy in the Rhine Valley stirring up the residents to make a violent protest against any movement to separate the provinces west of the Rhine from Germany proper. Marshal Foch has asserted that France must extend its boundaries to the Rhine in order to protect its eastern frontiers from future German invasion. Germany's contentions disregard in the past for treaty obligations furnish ample argument for safeguarding France and Belgium against that avian which is a predominant characteristic of the Hun.

It is amusing to observe that the German propagandists in the Rhine lands are modeling their protests carefully after those made by the inhabitants of Alsace-Lorraine when those provinces were separated from France in 1871. Germany will doubtless urge at the Peace Conference that to disannex the Rhine provinces would be for the Allies to repeat the crime of Germany at the close of the Franco-Prussian war. But the German republic has never broken a treaty obligation, has never done a dishonorable thing, while the very name Germany has become synonymous with treachery and deceit.

As for the protests of the Rhinelanders, the Allies may very well reply to them in the words addressed in the sarcasm by Bismarck to the Alsace-Lorraine deputies in the Reichstag: "It is not the wishes of the inhabitants of these provinces, but the interests, the welfare and the security of the empire that are now under consideration."

THE TWO GREATEST AMERICANS.

IN THIS month of February occur the anniversaries of the births of the two greatest of all the great Americans who have lent luster to our country's glory. As far as the United States is concerned, February 22 and February 12 are red-letter days on the calendar of the year.

Splendid by greatness is the long list of our countrymen whose deeds in peace and in war are written never to fade on the pages of history. But there can be no doubt that the names of Washington and Lincoln have fastened themselves more vividly and with deeper affection in the imagination and the hearts of the people than any others.

One was a soldier and the other a lawyer. Both were Presidents of the Republic. One freed America from an alien and despotic king, the other freed forever from bondage 4,000,000 negro slaves. At one blow he struck the shackles from a whole race in America, and, at the same time, preserved the Union from destruction.

It is something to be intensely proud of and to thank God for that this nation has never placed in the chair of its chief executive one man of the many who have been seated there that disgraced his high office. There were men among them whose claim to real greatness may have been slight, but there has never been one that failed in his duty as God gave him the light to see it.

Among them also were many indeed who stood high in the hall of fame and whose names are luminous still, as they will always be, with a glory they well deserved.

Only a few men greater than Jefferson ever lived. Monroe, Jackson, the Adamses and the Harrisons were remarkable men. The true greatness of Buchanan, who was so bitterly assailed in the fires of a flaming hour of doubt and crisis, is becoming better understood in the calm judgment of time and in a generation free from the wild passions of that hour. In our own day the names of Garfield, McKinley and others are recalled with tender pride. Last, but far from least, is the memory of Roosevelt, strong and brave, American to the very core of his intrepid heart.

Still, it is Washington and Lincoln who remain throned above all others in the soul of the nation.

II.

WHEN an American thinks of all that Gen. Washington was to his country he cannot fail to be a better American himself. "Providence left him childless," said John Adams, "that his country might call him father."

He was a man of high birth, his heritage was aristocratic, he was no seeker after public favor, his nature was naturally retiring. Yet no purer patriot ever lived. He loved his country as a man would love his life. He left behind him the peace of his stately home, and he sacrificed the best years of his life on the battlefield and in public office solely and with utter unselfishness to make his country free and to guide it past the dangerous shoals that threatened its beginnings.

Physically he was the handsomest man of his day. He was a daring and a most skillful horseman; in war among the greatest geniuses that have made war glamorous; in peace incorruptible, wise and patient.

Thinking of Washington as a military man we recall the message which Frederick the Great inscribed on the sword which he presented to him. The inscription was: "From the oldest soldier in the world to the greatest." Certainly he was a very great soldier.

Divine Providence appears to have had Washington in its special protection, for with all the dangers he went through he never received a wound, although at the Battle of Monmouth he rode between the opposing lines, through a hail of bullets, from which it would seem that a bird could not have escaped.

In public life he was slow of speech and never ready with his tongue. He had not the art of glibness. But his deliberated language was virile and stately. His farewell address to the army will remain among the world's classics.

There is no doubt that when the war of the Revolution had been won, Washington could have successfully, and with no necessary effort on his own part, set himself up as the king of the new nation. There were many who urged him to do so. But he thrust the crown aside. He was not a believer in monarchy.

When he had finished two terms as President and had refused a third, his neighbors at Mt. Vernon elected him to the office of justice of the peace, a trust which he willingly accepted. His emotion was profound when the committee of his former neighbors informed him of their action. To hide his emotion he put his hand upon his tear-stained lashes and said in extenuation of himself: "My eyes have grown dim in the service of my country."

III.

LINCOLN sprang from a stock of Americans altogether different from the stock that produced Washington. It is the Washington American and the Lincoln American combined that make the composite American. It is both these kinds of Americans that make America what it is—the greatest nation on earth; the greatest nation that has ever been on earth.

God formed Lincoln out of the common clay. He was of a gaunt figure, what is called "a homely man." His mind was rugged, yet keen as a Damascus blade. His heart was tender as a woman's, but as strong as oak. He was called, not irreverently, "the man of sorrows," because of what he was compelled to endure. Yet he had a saving sense of humor. He died a martyr.

Washington was the nation's sponsor at its birth. Lincoln was its savior in the gravest crisis that it has yet known.

That America sets up a ladder upon which the son of its humblest citizen may climb to the stars is illustrated in the life of Abraham Lincoln. In our public schools are gathered together the children of the poor and lowly. In every one of these schools there should be hung a picture of Lincoln learning to read before the pine-knot fire in the cabin, where he was reared.

In every mountain and prairie home in the land there should be a picture of Lincoln splitting rails.

Up from the lowliest estate he climbed step by step to the greatest office in the world, to the greatest trust that God has confided to man, yet, even to the martyr's crown at the end.

Think of the unpeakable tragedy that Lincoln was called upon to face—the tragedy of his country dismembered and destroyed while he was its head—and then think of the manner in which he faced and endured that tragedy. You will then know what Abraham Lincoln was.

Is it to be supposed that if Lincoln had not been President of the United States when rebellion assailed its citadels, the United States would be the nation that it is today?

It has been said that God has never failed to raise up a man to meet the needs of America in its hours of trial. The statement is absolutely true. And in the darkest hour America has yet known God raised up Abraham Lincoln to meet that hour.

They found him on bended knees in the White House praying when the shadows were deepest in those awful days that tried men's souls. "I went to God," he said, "because there was nowhere else to go."

It was an hour like that when Washington went down on bended knees in the snow at Valley Forge. They talked with God, both these men, as Moses did.

IV.

HAPPY it is for America that she has Washington and Lincoln for ideals. Blessed is the land that has the traditions of these, the two greatest Americans. It would be only when we forgot what Washington was and what Lincoln was that anarchy or anything approaching anarchy could gain a foothold on our soil. These two sublime characters were as opposed to everything that Bolshevism and I. W. W. represents as day is opposed to night.

Wherefore, it is well that on the anniversaries of the births of Washington and Lincoln each year, America turns from its busy marts, its looms and counting houses, and gives itself over to memories. It is well that then there is holiday in celebration of the gifts that God gave to the nation when He raised up these two men to meet their country's hours of trial.

When the gray-haired men of today were boys in school, the books of history put into their hands were filled with intimate stories of Washington and Lincoln. It is with deep regret we note that in the school books of today this feature of an American boy's education is somewhat neglected.

The boys and girls of today will be the men and women of tomorrow. And it is what they imbibe in the schools that will mould their characters and their thoughts. No thought that their minds can be made to grasp will make them better Americans than to know how great were Washington and Lincoln. In all the capitals of all the nations of the world there is hung a portrait of Washington. He is a universal figure. He represents to all peoples the ideal of liberty, greatness and true dignity.

The day will come when a portrait of Lincoln will also hang in every capital. For, he represents the ideal of the equality and the brotherhood of man.

When do We Demobilize This?

STATE MARKET FOLLY.
Senator Brown is standing by his guns in his attack on the State Market Commission. While he is the author of the bill by which the commission was originally created, Senator Brown now charges in a statement to the press that at the 1917 session of the State Legislature: "The political steam roller worked night and day to save the market director (Harris Weinstein) the result being that the market director was enabled to have the original market act repealed and to substitute one of his own design, providing for a State Market Commission, with no provision for markets—just the reverse of the original act."

Senator Brown alleges further that the whole of the money appropriated for State markets has been used under the administration of the State Market Director to increase the very ills which the act proposed to remedy. He says that an expensive State Market Commission and no State markets is an anomaly which makes the State government an object of ridicule.

In this conclusion The Times heartily concurs. But it regrets that Senator Brown should have limited his activities to seeking to abolish the present State Market Commission; for there are at least a score of other commissions that harass industry and increase taxation without rendering the slightest benefit to the taxpayers. When he says "the appropriation was expended to create the very conditions that the market act sought to abolish" he makes a statement that applies with equal force to many other State appropriations.

The Times holds that Senator Brown has proved his case against the State Market Commission; but it cannot agree with him that the remedy lies in repealing the present act, firing the present commissioners and creating a new commission that would have at its head three market directors in place of one. Mr. Weinstein averages up better than the majority of State commissioners. The fault lies in the act itself; not in its application; for the application only proved the folly of State interference with the laws of supply and demand. Senator Brown would replace one commissioner with three and to increase the State appropriation from \$35,000 to \$100,000 is the "Progressive" solution of the problem; but it is not the one that the taxpayers seek.

The State Market Commission has proved an encumbrance to industry and a useless expense to the taxpayers. Why not repeal the act and give the producers and consumers an opportunity to deal with each other without State interference?

A KNOTTY QUESTION.

Abolishing forced military service in time of peace is one of the knotty problems confronting the Peace Conference. Great Britain and the United States are looked to as the advocates of purely voluntary service; the French commissioners have not yet committed themselves; while Japan and Italy have indicated their uncertainty as to whether they can afford to pay enough to maintain a volunteer army and navy.

If this question were submitted to a plebiscite of the peoples concerned there can be little doubt as to the ultimate decision. One cannot conceive that a people would vote for enforced military service if it were assured that it would not be attacked by a disciplined army of a powerful neighbor. At the same time, the problem is not easy of solution; for if the League of Nations were to force some recalcitrant state, like Germany or Austria, to forego conscription, the antagonism awakened would be certain to give a powerful impetus to volunteer enlistment and the very nations whose armament should be limited for the better protection of the free peoples of the world would have the only big standing armies.

Limiting armaments by mutual agreements was attempted repeatedly by the European concert during the nineteenth century, but never successfully. The jealousies, animosities and covetousness of the different governments led to an unending

THE LANCER.

The family dog has the rump; the income taxes are coming due; my new shoes don't fit on the heel; the four-minute speakers threaten to return; and the barber broaches onions down my highly-sensitized nature.

But still my heart rejoices. What- ever else happens we are going to get rid of the Democrats.

After the next elections Democratic office-holders are going to be scarier in the United States than clean spots on a Bolshevik.

Every once in a while one of these fits of madness comes over the United States. They elect a Democratic administration; then spend the next twenty years trying to put back the country upon a so-called basis.

These distinguished southern colonels may be good judges of whisky; but there isn't going to be any more whisky. Their knowledge of finance runs on that wheel. They know about as much about running the finances of a nation as a Plute squaw knows about Latin.

Money has been flung around like ditch water. One-time country editors from cross-roads towns have been put in charge of railroad problems that would have staggered the best traffic brains in the world.

There have been no real scandals, incomprehensibly beyond belief, a selflessness beyond all human imagination, stupidity that passeth all understanding.

The Democratic leaders make no secret of it; they admit the Republicans can elect anyone they choose next time.

I think, in their hearts, they will be glad to get out. They shrink from the storm that is coming.

Money has been wasted before; but the facts have never before come so close to the people. Until now we have always been in a vague way that money was flying loose in Washington. It is different now.

By almost unbelievable sacrifices workmen and men on small salaries have scrimped and saved to buy Liberty. They have loyally stunted themselves to give this government money that has been flung around as though dollars were leaves upon the trees of an illimitable forest.

During the period of the war the administration managed to best back the public from the edge of the cess pool. Every time anyone queried they began to squeal "Pro-Germans! But they can't keep up the bluff much longer. The terrible facts of this debacle of waste—wanton, criminal waste—are going to be dug out.

And there is going to be a tornado.

Back in Washington there is a long-legged person who wants a job. He has been a member of the House of Representatives for many years. Any law, sufficiently silly, is likely to pass; so I dare say he will be elevated to the throne as public conscience keeper.

Censorship hasn't yet stood on its feet. But it is on its feet. As a practical proposition censorship can be accomplished only by placing the job in the hands of an omniscient person who can peer into men's hearts and know what thoughts are stirred there by every human action; or else you must have rules to cover the case.

Woodrow Wilson is the only omniscient person now living, and he is otherwise occupied trying to tell the European diplomats how to behave.

It is impossible to make rules for people that will prevent bad little boys from thinking bad little thoughts.

And of course thoughts are the only things that matter. The physical act is only the caboose that comes bumping along in the rear of the train.

I feel that it is really up to me to get excited about the case of Vassar College. Which means that the girls' permission to smoke cigarettes.

But the truth is I can't seem to get shocked. When I have a daughter old enough to go to Vassar she can smoke corn-cob pipes, hookahs, nargiles, cigars or roll-em-yourself if she wants to.

If old Sir Walter Raleigh had brought back word to Queen Elizabeth that he had found the Indian women hitting the pipe, instead of the men, then we would have considered it a most unmanly thing to do, and every little girl would, I suppose, have been sent to some kind of fashionable smoking school to be taught to roll 'em with one hand and so on.

King George, Emperor of the British, has written to a man out here to tell him the calendar he drew was just lovely. How wonderful to be a king with all these responsibilities.

The Secretary of War is trying to bust up the military system of courts-martial. He wants to substitute a lot of lawyers and judges and appeals and long-winded speeches.

Military courts are a clumsy system whereby justice usually doesn't get done. Civil law is a very adroit system of preventing justice from being done.

Between the two I can't see that it makes much difference. I am for whichever one calls for the least noise from Secretary Baker.

An amateur sailor was making his first trip across the Atlantic and was in the throes of mal de mer when the ship's surgeon came across him.

"What's the matter?" was the doctor's calm query.

"O-o-h," was the only response of the young man rolled over in agony.

"Come, get up," derided the surgeon, "nothing's the matter. The ship's been torpedoed and will sink in ten minutes."

"Ten minutes!" the sick man protested, feebly. "Can't you make it a little longer?" [Pittsburgh Chronicle-Telegraph.]

But they can't keep up the bluff much longer. The terrible facts of this debacle of waste—wanton, criminal waste—are going to be dug out.

And there is going to be a tornado.

Back in Washington there is a long-legged person who wants a job. He has been a member of the House of Representatives for many years. Any law, sufficiently silly, is likely to pass; so I dare say he will be elevated to the throne as public conscience keeper.

Censorship hasn't yet stood on its feet. But it is on its feet. As a practical proposition censorship can be accomplished only by placing the job in the hands of an omniscient person who can peer into men's hearts and know what thoughts are stirred there by every human action; or else you must have rules to cover the case.

Woodrow Wilson is the only omniscient person now living, and he is otherwise occupied trying to tell the European diplomats how to behave.

It is impossible to make rules for people that will prevent bad little boys from thinking bad little thoughts.

And of course thoughts are the only things that matter. The physical act is only the caboose that comes bumping along in the rear of the train.

I feel that it is really up to me to get excited about the case of Vassar College. Which means that the girls' permission to smoke cigarettes.

But the truth is I can't seem to get shocked. When I have a daughter old enough to go to Vassar she can smoke corn-cob pipes, hookahs, nargiles, cigars or roll-em-yourself if she wants to.

If old Sir Walter Raleigh had brought back word to Queen Elizabeth that he had found the Indian women hitting the pipe, instead of the men, then we would have considered it a most unmanly thing to do, and every little girl would, I suppose, have been sent to some kind of fashionable smoking school to be taught to roll 'em with one hand and so on.

King George, Emperor of the British, has written to a man out here to tell him the calendar he drew was just lovely. How wonderful to be a king with all these responsibilities.

The Secretary of War is trying to bust up the military system of courts-martial. He wants to substitute a lot of lawyers and judges and appeals and long-winded speeches.

Military courts are a clumsy system whereby justice usually doesn't get done. Civil law is a very adroit system of preventing justice from being done.

Between the two I can't see that it makes much difference. I am for whichever one calls for the least noise from Secretary Baker.

THE LANCER.

Too Long to Wait.
An amateur sailor was making his first trip across the Atlantic and was in the throes of mal de mer when the ship's surgeon came across him.

"What's the matter?" was the doctor's calm query.

"O-o-h," was the only response of the young man rolled over in agony.

"Come, get up," derided the surgeon, "nothing's the matter. The ship's been torpedoed and will sink in ten minutes."

"Ten minutes!" the sick man protested, feebly. "Can't you make it a little longer?" [Pittsburgh Chronicle-Telegraph.]

Too Much Fire Water.

Several persons were hurt yesterday in the usual Saturday crush automobiles on many streets. The seriously injured, although a few of the escapes were by narrow margins.

The first case reported was that of Mrs. Jennie O. Naxon, 49 years old, of 844 West Eleventh street, who was struck by a car on Seventh and Hill streets while waiting for a depot car when a Clara B. Hospital ambulance, driven by a man named Wood, came along. Mrs. Naxon was thrown from the car and was injured. The driver of the ambulance, who was going and she stepped back, the driver struck her and knocked her to the pavement.

Mr. Wood picked her up and took her to the ambulance to the Hospital. Mrs. Naxon was injured and bruised all over her body. She was taken to the hospital and is now recovering. The ambulance driver was not injured.

I Have Reduced the Prices in Every Department
And for the Next Three Days Will Handle Mark-Downs Throughout the Store
Here I am—this is my first trip to the Coast, having just completed a most successful week with Davidson Bros. in Sioux City, Iowa. Monday I propose to establish a new standard of values and can promise everyone in this city a merchandising treat like they have never experienced before. I have gone through the stocks in every department throughout the store, and believe I have selected the most popular and needed lines of merchandise for this ad., and marked the prices down to afford such wonderful saving that every one in the city will want to benefit by them Monday.

MILLINERY MARKED

Down to \$5—Now \$8.50
This is the way the Mark Down Man introduces the new spring hats to women, Monday. Attractive styles of all straw and straw hats. Hand made for the most part, and in either medium or large models trimmed with flowers and ribbons.
\$2 HATS \$2.50—What better could you wish for than such hats at this price. Of pineapple straw or rough braid, in black, purple, brown, etc., trimmed with band and bow.
\$2, \$3 New Hats, 9:15 to 10:15, \$1
I want to get the women here early and know that this will do the trick. New spring straw or straw combinations in black and colors and medium or small styles. Many of them banded. Others untrimmed. Samples for the most part, \$1.00.

SILKS MARKED DOWN

2000 Yds. Pl. & Fancy Weaves \$1
30, 32, 36 and 40-inch Widths; \$1.50, \$1.69 and \$2 Lines
Y. HOW the scissors will hum merrily clipping away yard after yard of silks with the price marked down to \$1. Including pretty brocaded silks, silk mixed poplins, lining satin, corded or trimming silk, satin messalines, chiffon taffetas, Georgette crepes in black and white, and plaid silk poplin, \$2 to 40 inches wide.
\$2.50 SILKS \$1.50—Here are pretty plaids or striped taffeta, silk poplins, black chiffon satin, Georgette crepes, crepe de chine, silk tulle, etc. Monday, \$1.50.
\$2 MESSALINE \$1.25—What woman wouldn't be glad of such a saving on fancy striped satin messaline, said the Mark Down Man. Including full line of colors. 36-in.

DR GOODS MARKED DOWN

INDORSES BOY SCOUTS.

Commissioner of Education Writes Strong Commendatory Letter.

Strong endorsement of the Boy Scouts of America has been given by Philander F. Claxton, Commissioner of Education of the United States in "An Open Letter to the Churches."

"The church and the school, adequately to serve the youth committed to their care, must extend their

functions and absorb under their direction the leisure time of the boy," he says.

"The availability of the Boy Scout programs for such a purpose has been fully tested. It has been approved by leading educators. The movement is essentially religious, but nonsectarian. It trains for citizenship, but is nonpartisan and nonpolitical. It is nonmilitary, offering a program of activities which includes every feature of military drill except the manual of arms and training to shoot to kill. It can be incorporated into the re-

creational programs of any denominational body, without readjustment. It offers the boy the opportunity to do the things he wants to do, in a better way than he can do them by himself. Scouting is designed to make real men out of real boys by a real program that works.

"The Bureau of Education commends it to the favor of all organizations desiring to extend the post-class room programs of the adolescent boys under their care."

CONTRACTOR IS BANKRUPT.
Willard A. Norton, a Los Angeles contractor and builder, filed a petition of bankruptcy in the United States District Court yesterday. He scheduled his liabilities at \$242,070, while his assets consist only of his household goods valued at \$110, which are exempt under the law.

The Los Angeles Single Tax League has elected William F. Lust, a former newspaperman, executive secretary. The league has headquarters at 303 American Bank Building.

MOUNTAIN WILL BUILD BIG CITIES.

Unique Clay Deposit in Southern California Brings New Industries Here; Federal Contract for Brick Ships Draws Attention to Possibilities.

The decision of the government to build four ships from Southern California clay has served to draw the attention of the commercial world to the possibilities of development of this unique raw product in Los Angeles.

The material from which the ships will be made is known as "float brick," but to the technical man it is known as "light aggregate" and will be used in making cement for pouring the ships, instead of the rock and sand formerly used in concrete hulls.

Not only is there raw material available in Southern California sufficient to build a fleet of merchant ships large enough to accommodate the world's shipping, but there is enough to build Los Angeles into a city of 1,000,000 with pressed brick structures, sanitary sewer pipes, chinaware, chemical stoneware and, in fact, all the needed clay products.

VARIETIES OF CLAY.
A survey of the clay products industry of Southern California just submitted to the manufacturers' committee of the Chamber of Commerce shows that there are twenty plants in this district now producing an infinite variety of clay products, every one of which is a potential export. These plants are operated by fifteen corporations and individuals and are utilizing twelve varieties of clay in practically inexhaustible quantities from one Southern California deposit.

The magnitude of the clay industry already attained was emphasized by the recent contract for government ships, which calls for the operation of seventeen kilns on full time for sixty days and the delivery of approximately 250 carloads of material to San Diego and Los Angeles. Almost coincidental with this order from Uncle Sam, there have just been completed shipments of 140 carloads of clay tile for the construction of the big government hospital at Fort Whipple, Ariz., and a contract has been let for the construction of nine permanent buildings at North Island, which will require nearly \$500,000 worth of Los Angeles-made tile. It is estimated that more than 95 per cent. of the present brick buildings in Los Angeles are home products.

The parent project of Southern California's clay industry is a huge mountain of various varieties of clay at Alberhill, on the main inland route to San Diego in Temescal Canyon, seventy-eight miles from Los Angeles between Corona and Elsinore in Riverside county.

USED FIRST AS COAL.
This has been developed by the Alberhill Coal and Clay Company, originally operated only as a coal proposition. Some twenty-five years ago, the clay deposits attracted the attention of a foreign potter and on his suggestion experiments were made leading to the discovery that here is clay in practically unlimited quantities suitable for the manufacture of any product made from soil.

The clay has a known depth of 150 feet and beneath the surface from fifty to seventy-five feet above the present working level. Engineers estimate that at the average rate of shipping for the past ten years, the supply cannot be exhausted in 200 years.

In the bank are found clays from which can be manufactured the best qualities of fire brick, pressed brick, paving brick, roofing tile, hollow building block, architectural terra cotta, sanitary sewer pipe, chemical stoneware, electrical conduits, ball clay for hotel china and commercial stoneware.

tended a branch six miles from Elsinore. The broad-gauge railway is reached by an industrial narrow-gauge railroad operated by gasoline motor cars.

An interesting phase of the present development is that the entire plant in extracting the clay is operated by gravity and this power-saving plan has been extended throughout the big plant of the Pressed Brick Company, so that artificial motive power is not needed until the freight cars reach the main track loaded for their ultimate destination.

The deepest penetration into the mountain is 400 feet. The industrial railroad operates 4,300 feet of narrow gauge track, with thirty cars each having two ton capacity. The average yearly tonnage brought out is between 50,000 and 70,000 which comprises approximately 85 per cent. of the total of this class of material mined in Southern California. This output can be increased to meet almost any demand. The mine of lignite coal in the clay mountain is expected to do its part in the future development of clay industries, as experiments are now under way to devise a system of utilizing powdered coal for clay burning.

Research work is being done to determine the relative values of coal, oil and gas fuel, as it is expected that future clay products plants will

locate near the base of supply of the raw material, because of the advantages of quick delivery and saving in transportation. Ample water power is available as well as unlimited quantities of building material.

FIRE BRICK AND TILE.
The first large plant to be established in the clay city is known as Plant No. 4 of the Los Angeles Pressed Brick Company, which was completed something more than two years ago and is the second largest of the company. This is devoted chiefly to fire brick and tile making. During the war, the demand for fire brick and tile was maintained, as these were classed as necessities.

The clay products industry in general was hit hard by hostilities, as many of the products were classed as non-essentials and some of the Southern California plants closed down completely as a result of the war. The increased demand for fire brick, however, sustained the demand for clay during the war and manufacturers of government ships in Southern California are pointing with pride to the fact that they obtained the lining for the fire boxes from local concerns.

With the rapid resumption of normal lines of industry, all branches

of the clay products are expected to output and an increase of the age of products, occasioned by war it is expected that there will be a large increase in the demand for the manufactured clay products to the most reliable and obtainable, the clay products industry now represents an important California industry, about \$1,000,000 annually, all of which is derived directly from the raw product in the foothills.

EXPORT POSSIBILITIES.
A feature of this industry is attracting wide attention in commercial circles is its position as an export line. A survey shows one-third of the articles manufactured are being shipped but that practically everything of clay can find a market in countries bordering on the Pacific. In harmony with the manufacturers' committee and industrial bureau of the Chamber of Commerce, to group industries similar lines and effect coordination, a research project has been established at Corona and Alberhill, which is open to all engaged in the products industry. Export work will be done in all lines of results obtained will be available all engaged in its various branches of manufacturing.

The plant is equipped with retorts, and all equipment for experimenting is being installed. There will be included a library where government and other publications on the entire industry will be available for those interested.

"LIFETIME" is not an expense, but an investment that pays. "LIFETIME" saves fuel.

"LIFETIME" pays for itself in a short time.

1—Because "Lifetime" absorbs the heat quickly. Turn the flame to the usual height only until food is well heated and then Turn Down One-Third to One-Half.

2—Because "Lifetime" stores up a large amount of heat and holds it. Therefore, it takes less time to cook in Lifetime and less fuel is consumed.

When the Baby Needs a Laxative---

Mothers know better than the ever-watchful mother—the natural doctor of the family in all the small ills—that when the baby is out of sorts it is usually due to indigestion or constipation.

It is always well, in any of its illnesses, to look for this cause. The diet may have to be changed, but before good can result from it, the bowels must be moved.

The mother has the choice of many medicines—cathartics, purgatives, bitter-waters, pills, physics, etc. But the little body doesn't need such harsh remedies for they wrench the system and do only temporary good, so often followed by an unpleasant reaction.

Dr. Caldwell's SYRUP PEPSIN
The Perfect Laxative

PRICE AS ALWAYS
In spite of greatly increased factory costs due to the war by soaring profits and soaring wages we have maintained the price at which this family laxative has been sold by druggists for the past 25 years. Two sizes—50c and \$1.00.

FREE SAMPLES
If you have never used Dr. Caldwell's Syrup Pepsin for a free trial bottle to Dr. W. B. Caldwell, 222 West Washington St., Indianapolis, Ind., or to a copy of Dr. Caldwell's "The Care of Baby."

Syrup Pepsin is guaranteed to do as promised or the druggist will refund the money. Thousands of cautious families have it in the house, secure against the little ills.

You are interested in the service you get when you trade with a store.

If you knew just what sort of service the owners of each store want to give, it would have a good deal to do with where you did your buying.

This store is capable of rendering every householder or prospective householder an unusual service.

Our business has been built upon the one idea of selling only good furniture; guaranteeing that it is good and that it will stay good; agreeing that you must be satisfied with what you buy here, not only when you see it displayed in our store, but when you get it into your home, and always thereafter.

Such satisfaction is a source of pleasure to you and that means good will for us.

Our occupation has been that of furnishing the homes of a large population for a good many years. That we have performed our task well is evidenced by our continual growth.

A review of our sales analysis shows that once a person buys here, he is always a customer and an advertising medium.

This is proof that we serve our customers in a manner that causes them to seek again and again the advantages and the accommodations that may be found in this unusual store.

Department of Labor Official, Here, Says It Is Our Patriotic Duty.

Start your buildings now, as a patriotic duty. This is the message which Henry N. Teague, associate director of the division of public works and construction development of the United States Department of Labor, brings to Los Angeles.

Mr. Teague was at the City Hall yesterday to see Mayor Woodman, and he will also see Gov. Stephens in connection with the spreading of this new propaganda. He says he is backed by Secretary of Labor Wilson in the declaration that there is no prospect of any material reduction in the price of building materials for a long time to come; and that just as it was a patriotic duty to refrain from building during the war period, it is now a duty to resume such operations, thus aiding in giving work to returned soldiers and sailors and in advancing the general prosperity of the country.

He is a resident of Chicago, where he is director of a bank, of which his father-in-law, a millionaire, is president. The other members of the Broome family live in San Francisco.

DR. FOSTER'S Improved System

Dr. D. E. Foster,
Orpheum Building,
Los Angeles, Calif.

The dental work which you recently did for me was entirely painless and has proved very satisfactory.

Yours very truly,
Mrs. F. W. Eldridge.
753 South Bonnie Brae St.

Mrs. Eldridge is the wife of the Managing Editor of one of Los Angeles' big morning newspapers.

Dr. D. E. Foster,
Orpheum Bldg., City.
Esteemed Sir:
Just a word of appreciation. For several years I suffered terrible pains, both in the head and body, trying various remedies and doctors, both M.D. and D.D.S., without success. Through the advice of a friend, who recommended your office, I thought I would call on you. At that time you pronounced my case "Pyorrhea" of the gums, extracting several teeth without a thought of pain. The plate and bridgework is elegant, couldn't be better. I eat anything now and sleep well. Your treatment of Pyorrhea should be known by all sufferers. Your charges are very moderate, consistent with service and efficiency.
Sincerely yours,
Edward Harris,
Secy., Tire Construction Co.

Real PAINLESS Dentistry removes the "fear" which is responsible for thousands of people neglecting their teeth."

I have removed the dread of the dental office, for I can do your dental work painlessly. Toothache takes your mind off of your business and is disastrous to your health. The mouth should be kept clean—free from pyorrhea, cavities, dead teeth and old roots which sap vitality and are so unbecoming to youth and beauty. A good set of well-kept teeth is your best recommendation when applying for a position.

Absolutely
PAINLESS
Methods

Dr. Foster's restoration Gold Plate is the best of its kind, giving back the fullness to the cheek and youthful expression to the mouth and lips. It is cool, non-irritating, eliminating the gradual wasting away of the tissues, which give that worn expression to the face.

As the tissues under gold remain in a perfectly normal state this plate fits more firmly than any other plate—being made of a tempered gold, is only the thickness of paper—having great rigidity, it retains its beauty of polish and absolute cleanliness.

Dr. Foster's Gold Plate should be considered a lifetime investment, and instead of detracting from the character of the face, as conventional form of teeth most invariably do, actually enhances and strengthens all that is fine and indicative of the individuality of that face.

Our Aluminum and Rubber Wafer Plates are constructed along the same lines as the more expensive plates.

Note the thickness of the Foster solid cusp crown compared to others.

The Foster Crown is guaranteed to last a lifetime. This is merely a sample of the type of dentistry performed in my offices. The solid cusp Foster Crown is made to last—to give the same satisfaction 10 years from now that it gives today.

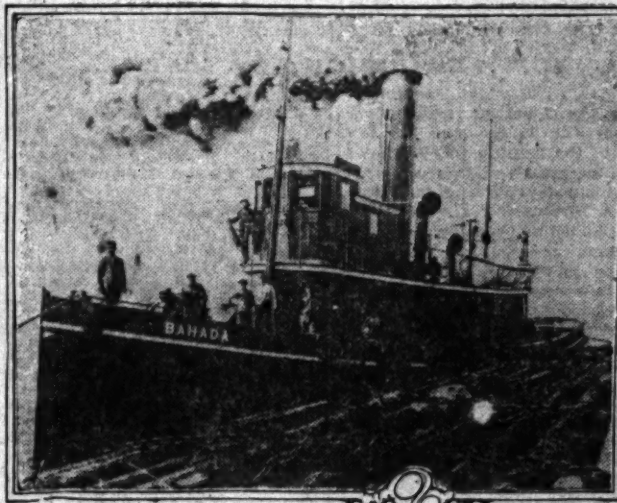

You do not need to stand the inconvenience of a plate if you have a few good roots remaining. Dr. Foster's Replacement System of tooth restoration is applicable to cases where the old style bridge should not be used, restoring from one tooth to a complete set. They cannot be detected from your own perfect set in appearance or service, in fact, they are so comfortable, being permanent, that one soon forgets they did not grow there.

Ready for Towing and Salvage.

Seagoing Tug "Bahada."

HARBOR HAS SEA-GOING TUG

The Los Angeles Shipbuilding and Dry Dock Company has installed as part of its equipment the sea-going tug Bahada, purchased last week from the Hercules Powder Company at San Diego. The acquisition of the Bahada will be of great value to Los Angeles Harbor, which up to this time has not had the service of an ocean-going tug.

The Bahada will be equipped with wireless, and with a full crew standing by at all times, will be immediately available for any and all cases of towing and salvage in and around the harbor. Her cruising radius is conservatively 1000 miles, and with her equipment she will be available for towing any sized vessel in any kind of weather.

The Bahada was built at the Moran shipbuilding yard in Seattle, and after a tryout on inland service she was put to deep-sea towing and operated from Cape Flattery to points on Puget Sound.

The Bahada is equipped with a 400-horse-power compound engine, Scotch marine boiler and surface condenser. She is ninety feet long with a nineteen-foot beam and draws eleven feet of water. There are accommodations for the captain and fourteen men, and a carrying capacity of 350 barrels of oil, an equipment of 175 fathoms of four-inch manila hawser, and fifty fathoms of one-inch wire hawser. Steam anchor winches and steam capstan for hauling in hawser.

Her speed is eleven and a half knots light. She is equipped with electric lights throughout and has a powerful searchlight.

TO DISCUSS WORLD PEACE.

Many from Los Angeles will Attend the League of Nations Congress.

Los Angeles will be represented by five special delegates when the Pacific Coast congress for a League of Nations opens its two-day session at San Francisco next Wednesday. They are Judge Benjamin F. Bledsoe, Joe Crail, Mayor Woodman, Motley H. Flint and Oscar C. Mueller, former president of the Chamber of Commerce.

In addition to these special delegates, there will be a large number of other local delegates, both men and women, representing various organizations and as individuals. Representing the Los Angeles Chamber of Commerce are ex-Senators Frank P. Flint and R. N. Bulla and John S. Mitchell.

The congress will be under the auspices of the League, to Enforce Peace, and former President Taft, the most conspicuous member of the league, will be one of the principal speakers at the congress. President Taft has just spoken at a similar meeting at Chicago.

Traveling on a special train with other notable persons on a tour of the country addressing nine congresses called to discuss the objects of a league of nations.

FROM THREE STATES.

California, Arizona and Nevada are the three States sending delegates to the Coast congress at San Francisco, and the women of each State are said to be taking as keen interest as the male delegates in the movement. Women's clubs are planning to send their best speakers to the congress, and educational and civic organizations in which they have a voice is represented.

EXPECT FIVE THOUSAND.

Arizona is also to have a delegation, which is being formed by Gov. T. E. Campbell. The work in these two States, in conjunction with the large and extensive effort being made in California by the Committee on Arrangements, assures it is said that at least 5000 delegates will attend the two-day session.

It is planned that a joint luncheon will be held by the Commonwealth, Advertising, Rotary and Home Industry Clubs of San Francisco on Wednesday. That evening the Harvard and Yale Clubs will entertain former President Taft and others of the party.

Gov. Stephens has appointed more than 200 clergymen and pastors of all creeds in California as delegates to the congress. Gov. Boyle, of Nevada, and Gov. Campbell, of Arizona, have also appointed a large number of ministers in those States, as delegates.

SAVINGS CAMPAIGN WILL TEACH THRIFT.

SELLING STAMPS ONLY ONE OF THE OBJECTS, TREASURY DEPARTMENT SAYS.

The following message to the War Savings societies of the country has just been issued by the savings division, war loan organization of the Treasury Department:

"The 1919 savings campaign is to be more than a campaign to sell stamps. It is to be a campaign to stamp thrift as a permanent habit upon the lives of the people. It is to be a campaign to impress the people with the fact that thrift is a patriotic duty in war or out of war; that it is a personal obligation and that even from a selfish standpoint it pays.

"It is to be a campaign to impress permanently upon the people the need for careful spending instead of thoughtless spending; for a systematic saving instead of haphazard saving; for wise investment instead of foolish investment.

"The Savings Society is the all-important factor in this campaign. It is the central power station from which the steady impulse goes. The Treasury Department will look to the War Savings societies to furnish the necessary power more and more as the months go by. The reward will be the welfare of our country and of each individual in it. The test of enduring patriotism and personal success is before us. We know that the American people will not be found wanting."

SUIT OVER CANTEEN ORDERED DISMISSED.

United States District Judge Bledsoe handed down an opinion yesterday in the case brought by William J. Boyle against the Woolwine Metal Products Company, ordering a decree of dismissal. Boyle had complained that the Woolwine company had infringed his patent on an improved canteen designed for military and other uses.

The court found that the canteens manufactured by the Woolwine company are different in all material respects from the product of the plaintiff, and therefore there could be no infringement.

How Any Woman Can Remove Hairy Growths

(Beauty Culture)

It is not too necessary for a woman to visit a beauty specialist to have superfluous hairs removed, for, with the aid of a plain delectable paste, she can, in the privacy of her own home, remove even a stubborn growth in a very few minutes. The paste is made by mixing some water with a little powdered delectable. This is applied to the hairs and after 2 or 3 minutes removed and the skin washed, when it will be left clear and hairless. Be sure you buy real delectable.

What Policy Should the Owner Pursue?

"In a recent issue of the Sunday Times we gave a brief outline of building conditions. The question as to the advisability of improving property now being raised by many, we felt that some statement on the subject was both important and timely.

"Prevailing prices on many commodities are considered high. Will they be less and when? are pertinent questions. High prices do not exist in this country alone, but throughout the world. With the world shortage comes an abnormal demand. Human needs have not been adequately supplied for a long period of time and it is therefore only natural to suppose that with the return to normal conditions there will be a resumption of building.

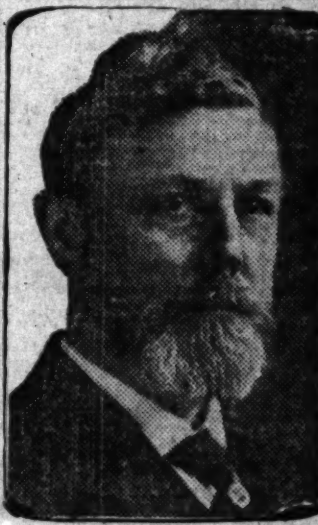

"When we think of building, our minds quite naturally revert to pre-war prices and we find ourselves making comparisons. Some of these deductions are both interesting and instructive.

"To illustrate, our enameled brick which is a leader with us is 11 1/2% above 1917 pre-war price and roofing tile only shows a 7% increase. While this may reflect fair and rather liberal treatment of our patrons during the war year, it tends to show that prices on some materials are not what could possibly be construed as high.

"The owner of a piece of land will lose more by leaving his property idle than the slight increase in building will cost him—besides, he has no assurance whatever that the future holds any lower prices for him, at least not for some time to come.

The Doctor's Advice
By Dr. Lewis Baker

The questions asked in general in character, the diseases are given and the remedy is given in a simple and easy to understand manner. The book is a small envelope for carrying in the pocket, and is a most valuable and interesting book.

Answer: "I have such a very severe cough and cold and have not been able to get anything to help me. It is weakening my system."

Answer: "Use the following and your cold and cough will vanish and you will soon be strong again. Get a 25-cent bottle of Concentrated Essence Menthol-Lavender and take every hour or two. This can be taken pure or made into a full pint of home-made syrup. Full directions as to use will be found on bottle. This is a mild laxative and will drive the cold from the system."

Dandruff asks: "I have tried to cure dandruff, itching scalp, falling hair, and baldness with numerous ointments, etc., but in vain. What do you recommend?"

Answer: "I have been recommending Plain Yellow Mineral for 15-20 years and scores of my patients are delighted with the quick, pleasant action of this remedy in stopping itching, falling hair, dandruff, etc. It gives the hair health, luster and vigor as nothing else does. Obtain in 4-oz. jars with full directions."

Sister writes: "Let me say that my condition puzzles and worries me. In the last year I seem to have been growing old rapidly, though only 28. My food and sleep do not seem to help my strength and energy, and lately I have dizzy spells, trembling, headache, loss of appetite, memory and hopelessness. Despondency and worry over my condition are ever present."

Answer: "Cheer up, get well and then conserve your vitality by proper, temperate living. Obtain Three-Grain Cod-Liver Tablets in sealed tubes with full directions, use them and an agreeable."

BURNEY'S KIDNEY PILLS
OLD BY ALL DRUGGISTS
Established 1895.

How To Avoid Trouble.

It is primarily due to the fact that the human body is a machine, and like all machines, it needs to be kept in good working order. The most common cause of trouble is the neglect of the bowels. If the bowels are not kept moving, the system becomes clogged, and the result is a state of general debility.

NOTE: For many years, Dr. Lewis Baker has been giving out this book free of charge to all who request it. It is a most valuable and interesting book, and is a most valuable and interesting book.

THE Circulation of the Times is Faster Than Ever.

Free Yourself of Rupture Without Pain, Operation or Loss of Time

FOR the benefit of Times readers we take pleasure in announcing the Brooks offer to save all who are ruptured from wearing trusses and other painful makeshifts that do not cure.

The Brooks Appliance Co. gladly sends this remarkable Appliance ON TRIAL to prove that it holds the rupture back, keeps it in place, prevents it coming down or slipping out and finally cures it entirely.

No man or woman ever can look and feel his or her best while suffering the torment, pain and discomfort of rupture.

Every day that you suffer from rupture—every hour of truss torture that you endure—after you read this page is *your own fault*.

For many years we have been telling you that no truss will ever help you. We have told you about the harm trusses are doing. We have told you that the only truly comfortable, sanitary and scientific device for holding rupture is the Brooks Rupture Appliance.

Now we offer to prove it to you, entirely at our risk. We will send you a Brooks Rupture Appliance *on trial*. If you really want to be rid of your rupture fill out the coupon below and mail it today.

Instead of wearing a steel spring or inflexible harness, try the *velvet soft* Brooks Appliance.

Instead of the hard pad of a truss, use the *soft rubber automatic air cushion* of a Brooks Appliance.

The Brooks Appliance clings to you without force and you are hardly conscious of its presence. And above all else, it **HOLDS** *always*.

Within an hour after you receive the Brooks Appliance, if you take advantage of this remarkable trial offer, you will throw away your truss forever.

Over 670,000 People Have Accepted This Offer. Why Not You?

Doesn't that prove that the Brooks Appliance is not an experiment but a positive success—that it does all we claim for it? Among these 670,000 men, women and children there must be *hundreds whose condition was identical with yours*. Can you afford not to investigate and satisfy yourself when it costs you nothing to prove what the Brooks Appliance will do for you?

This wonderful device is a triumph of scientific and mechanical genius, the result of more than 30 years experience and the

The above is C. E. Brooks, inventor of the Appliance. Mr. Brooks cured himself of rupture over 30 years ago and patented the Appliance from his personal experience. If ruptured, write TODAY to the Brooks Appliance Company, Marshall, Michigan.

percentage of cures effected by its use is little short of miraculous.

Many hundreds of physicians and surgeons recommend the Brooks Appliance and condemn trusses as more harmful and dangerous than any other method of retaining and treating rupture. Thousands of people have written us to testify to the amazing results they have secured from this great invention. Many of these people live right in your vicinity and we will be glad to send you copies of their thankful letters if you will ask for them when you write.

Men, Women and Children Find the Brooks Appliance Equally Effective

No matter if your rupture is old and severe or only recently developed, no matter if you are young or old, you should not fail to profit by this **No-Risk Trial Offer**.

No other rupture support, truss, lock, device, pad or plaster is offered to the public under so broad a guarantee of satisfaction.

If for any reason whatever you do not wish to keep the Brooks Appliance after you try it, send it back. You don't have to give any reason, you don't have to send to us for any return instructions or shipping label. There will be no argument, no dispute or misunderstanding.

Ten Reasons Why You Should Accept This Offer

1. It is absolutely the only Appliance embodying the principles that inventors have sought after for years.
2. The Appliance for retaining the rupture cannot be thrown out of position.
3. Being an air cushion of soft rubber it clings closely to the body, yet never blisters or causes irritation.
4. Unlike ordinary so-called pads, it is not cumbersome or ungainly.
5. It is small, soft and pliable, and positively cannot be detected through the clothing.
6. The soft, pliable bands do not give the unpleasant sensation of wearing a harness.
7. Nothing to get foul; it can be washed without any injury.
8. There are no metal springs in the Appliance to torture one by cutting and bruising the flesh.
9. All materials are the very best that money can buy, making it a durable and safe Appliance to wear.
10. Our reputation is so thoroughly established and our prices so reasonable, our terms so fair, that you should not hesitate to send the free coupon **today**.
